SIXTEEN LOSE LIVES IN HOSPITAL FIRE

GRADUATES TOLD A NEEDY WORLD BECKONS TODAY

Waters Says Normalcy Can
Be Realized by Hard
Work Only.

BIG CLASS FINISHES

College Graduates Thrown
Challenge To Solve the
Business Mystery.

Referring to America's present depression as a "mere incident," Dr. H. J. Waters, editor of Kansas City Star, poured out a message of optimism to the graduating class of East Central Teachers college this morning and invited every member of the class to assume his responsibility in "getting back to a new normalcy."

Dr. Waters' address was the final event in connection with the graduation of eight from the college department and the awarding of life certificates to fifty-five students. Dr. A. Linscheid, president, conferred the degrees and passed out diplomas at the conclusion of the exercises.

"In speaking of normalcy," Dr. Waters said, "we refer to it as water that has run under a bridge, never to return. We think of the low cost of living as the good old days but they were only an accident. We shall never get back to the pre-war times of 1913—the world saw only one time when there were plenty for everybody to eat. That was when America was unloading and expanding and the fertile west was an ample granary for everybody. It was then and then only that the age old prayer, the prayer of the ancients, 'give us this day our daily bread' was answered."

Traces Origin of War.
Origin of the World War was traced by the speaker to a demand of the world for more to eat and more living room.

"And after war came the panic. We had said that our federal reserve system would put us high and dry, out of danger. But when the depression came, it came with awful force. We have never learned how to get over a panic without suffering its bitterest dregs. But when a period of depression begins to give way, factories start up, more acres go under the plow, credit is extended, and there is a surplus accumulated. Then someone, with a keener vision than his neighbors, sees overproduction and a panic ahead. He begins to cut production, there is a general reaction and we again have depression and low prices."

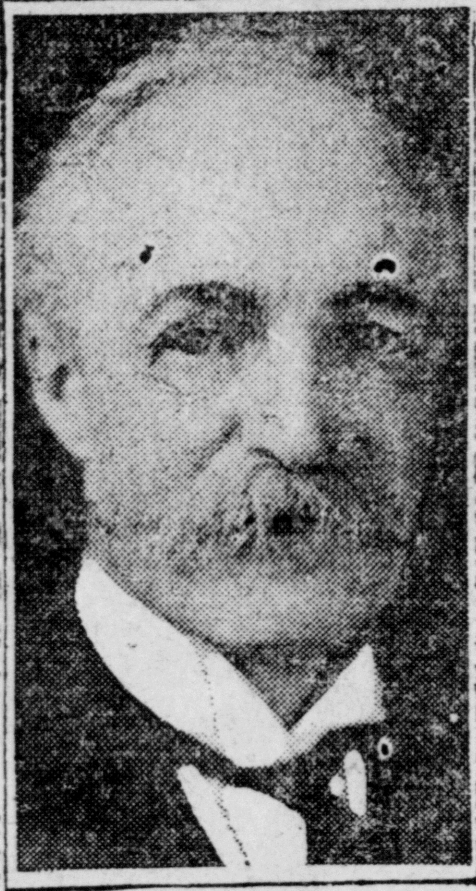

"Cycles of business, with alternating periods of prosperity and adversity, may well be explained on a basis of confidence. The story is told of a certain saloon which on one occasion offered a goose for raffle. A place was cleared at one end of the bar, a 20 cent goose was put up in a dollar selling scheme, and the chances were sold. It happened that the bartender won the goose. Having no use for it, he placed the fowl under the bar and again raffled off a 20 cent goose for a dollar. This process went on for a time. Two frilled face boys playing in the alley saw the goose under the bar and stole it. Some time later one man who had won the goose demanded to see his property. The goose was found missing and there was a panic. This is analogous to business tendencies."

Panic Was Inevitable.
Hard times cannot be attributed to the war, he said. "Even before the war prices were mounting. Business was being expanded and speculation was developing. These are signs which point to a crash."

An equal adjustment between the price of farm products and other commodities and the cost of labor is necessary to usher in the new normalcy, Dr. Waters said. "In times of prosperity we contract big debts. We pay them when times are hard. We buy things when money is cheap and pay for them when they are dear. Our national debt has gone up six times. There has been a general increase in the world since before the war. But in making out adjustment, it is far better to bring farm prices up than it is to grade wages down."

"Let us never equalize downward. That is as inconsistent as would be the man who, finding his neighbor and two sons at the brink of a well looking down at his wife and daughters who had fallen in, pushes the rest of family in to pu-

Pinchot Elected?

Most recent portrait of Gifford Pinchot.

PHILADELPHIA, May 18.—Returns from 7,543 districts out of 7,934 election districts in Pennsylvania in Tuesday's primary so far tabulated showed a majority of 8,027 for Gifford Pinchot, for the republican gubernatorial nomination over Attorney General George E. Alter. With 391 districts missing, Pinchot's total was 496,980 and Alter's was 488,959.

HOOVER SEEKS TO CUT COAL PRICES

Bituminous Operators Meet
With Secretary Today
In Negotiations.

(By the Associated Press)
WASHINGTON, May 18.—Secretary Hoover asked for and obtained today the approval of leading operators of the non-union bituminous coal fields for a government plan of "getting the coal industry by voluntary action to put a stop on increases of coal prices," during the period of the existing coal strike.

The plan which was approved by about 40 operators, who met with Mr. Hoover, calls for a creation of a committee of operators with government and consumers' representatives serving on it on each district where coal is being produced, through which all orders for coal will be cleared. A similar general committee will be set up in Washington and Mr. Hoover assures the coal operators that he had Attorney General Daugherty's opinion that such "co-operative action to reduce and hold down prices in public interest" would be legal.

NON-AGGRESSIVE PACT AGREED TO BY GENOA PARLEY

(By the Associated Press)
Genoa, May 18.—The non-aggression pact was adopted unanimously at a plenary session of the political sub-commission of the Genoa conference today. The pact was not signed but was adopted in the form of a resolution, each state pledging itself to respect it.

Sir Edward Grigg announced on behalf of the British delegation this afternoon that further advice had been received from the United States government and that it did not seem likely that the United States would participate in The Hague meeting, at least until that scope of the meeting was better understood.

U. S. Attitude Revealed.
WASHINGTON, May 18.—Further information as to the attitude of the Washington government regarding the meeting next month at The Hague undoubtedly has been obtained by the delegations of the powers at Genoa, either from Ambassador Child who is known to be fully informed as to the state department's views, or possibly through their representatives and ambassadors in this country.

FRANCE AND BRITAIN TO CONFERR UPON WAR DEBTS

(By the Associated Press)
WASHINGTON, May 18.—Negotiations may be conducted simultaneously with France and Great Britain for the funding of the war debts of those nations to the United States, it was said today at the treasury.

TWO MEN KILLED IN TRAIN WRECK AT SOPER TODAY

Frisco Train Plunges Into
Boggy River As Tender
Jumps from Rails.

FIREMAN IS INJURED

Bodies of Victims Taken
To Hospital at Hugo;
Cars Telescoped.

(By the Associated Press)
HUGO, May 18.—John F. Hume, engineer, age 52, of Hugo and Harvey McDaniels, age 31, brakeman, also of Hugo, were killed when Frisco engine No. 644 plunged thru a trestle near Soper west of here at 10:30 last night. Five box cars were piled up behind the engine. It is thought that the tender of the engine which was being towed backward into Hugo jumped the track and tore up the bridge. Hume was pinned under steel wreckage in the cab and rescuers were forced to use an acetylene blow torch to remove his body. McDaniels was horribly mangled by bridge timbers. Both men were married. Passenger traffic on the A. and A. division of the Frisco is suspended.

ARDMORE, May 18.—Two men were killed and one probably fatally injured when a St. Louis and San Francisco train plunged through a bridge over Boggy River, west of Soper, Choctaw county, at midnight Wednesday. Five cars with the engine and tender dropped from the embankment twenty-five feet high.

The dead are Harvey McDaniels, front brakeman, who was thought to have been riding in the cab, and Engineer J. F. Hume.

The fireman, whose name could not be learned here, was injured. The body of the victims were rushed to Hugo, the division point.

The train was running late into Hugo and it is thought it was going at a fast speed when the tender jumped the track just before reaching the bridge. This threw the engine off the track and when the bridge was struck, it ploughed through. Five cars stacked on top of the debris. Several other cars of the train were telescoped by the impact.

MARRIAGE OF VALENTINO WILL BE INVESTIGATED

(By the Associated Press)
LOS ANGELES, May 18.—The federal government through the department of justice bureau of investigation agents here will investigate the marriage of Rudolph Valentino, screen actor, to Miss Winifred Hudnut of New York at Mexicali, Mex., it became known here today. Valentino will be questioned here by federal officers it was stated at the federal building and efforts will be made to interrogate the bride as soon as she can be reached at some point between here and New York, he reported destination.

Increase in Output of Oil Field Shown In Institute Report

(By the Associated Press)
NEW YORK, May 18.—The daily average gross crude oil production in the United States increased 14,950 barrels for the week ended May 13, according to the weekly summary of the American Petroleum Institute, totaling 1,422,400 barrels as compared with 1,407,250 barrels the preceding week.

Oklahoma-Kansas shows a daily average gross production of 62,200 barrels, an increase of 6,750 barrels. In Oklahoma the production of the Osage nation is shown as 98,100 barrels against 100,000 barrels and the output of the Lyons-Quinn pool was 38,400 barrels against 42,800 barrels.

HORSE TRADER AND GIRL HELD UNTIL MAN FOUND

(By the Associated Press)
MIAMI, May 18.—Walter Rice, 43 years old, a horse trader, and his daughter, Ruth, 17 years old, formerly of Wichita, Kan., are in the Ottawa county jail in connection with the disappearance of James "Low" a teamster of Douthat. Barlow's wife fears he has been killed and possums are searching for the body of the missing man.

Greenland was discovered by an Icelandic about 876.

INTRODUCING 1922 Graduate OF ADA HIGH

Juanita Horn.
Miss Juanita Marion Horn, daughter of Mrs. A. M. Horn of 712 East Fifteenth street, will graduate at the high school Friday evening.

Miss Horn is a member of the school athletic association, dramatic club, and H. Y. W. C. A. She came to Ada from Norman last year, having completed three years of work in the high school at that place. She also held a national Y. W. C. A. membership card. She was a member of the Norman high school girls' glee club two years. Miss Horn intends to continue her studies in East Central college, and later to complete them in the University of Oklahoma.

SHE STARTED HER ARTISTIC CAREER MODELING BUTTER

Mrs. Sally James Farnham.

Mrs. Sally James Farnham, now a well-known sculptor, was formerly an invalid confined to her bed. She started making images in the butter brought on her tray and finally after a few lessons from her architect husband she not only recovered from her long illness, but has attained distinction in her work. She is now making a bust of President Harding.

Cozby Arrested for Alleged Knowledge Of Kidnaping Girl

(By the Associated Press)
ALBUQUERQUE, N. M., May 18.—Jack Cozby, held here on a charge of concealing a criminal conspiracy in connection with the disappearance of Miss Opal Rexroat, Ardmore heiress, today waived extradition and is being taken to Ardmore by a deputy sheriff. U. T. Rexroat, father of the girl who came here when it was reported that his daughter had been located with Ludie E. Kinney at an isolated ranch in the mountains near here, is waiting advices from Houston, Tex., where the couple were reported arrested last night.

Mrs. J. W. Dean left today for Okemah after receiving word of the serious illness of her sister, Mrs. H. C. Dooley.

DEFENDS LEWIS AGAINST BARBS OF HIS CRITICS

"Insidious Propaganda" Is
Branded by Bittner
at Muskogee.

FARRINGTON FLAYED

Illinois Leader Compared
To Soldier Who Turns
To Enemy's Side.

MUSKOGEE, May 18.—A vigorous defense of John L. Lewis, international president of the U. M. W. of America, was made here today by Dan A. Bittner, representative of the international union, in an address before the special convention of district 21 of the miners' union. Declaring that an "insidious propaganda" is being circulated against Lewis by his enemies, Mr. Bittner declared that it "is time someone was answering these slanderous statements." He said that it is apparently a personal fight on Lewis because no members of the executive board of the international organization have been concerned with the attacks made on Lewis.

Declaring that he had heard Frank Farrington, president of the Illinois district of the miners union, say that he thought the present national coal strike "was lost because of it," Mr. Bittner pointed his finger at Mr. Farrington who sat at a table in front of the convention hall and declared that "this strike is not lost and this battle is going to be won despite the statement of any living man who disagrees."

"If a general under Pershing before the battle of the Argonne had said publicly that the battle was lost before it began, he would have been backed against a wall and shot as an ordinary traitor," the speaker shouted at Farrington.

Farrington arose and objected to the charge that he voiced such a prediction.

MILLERS SCUBBED WHEN
THEY ATTACK MARINE ACT
ST. LOUIS, May 18.—Representatives of the Southwestern Miller's League and the Kansas City Board of Trade were cut short today when they attacked the desirability of the merchant marine act before a subcommittee of the shipping board. The two witnesses referred to the act as a "penalty for using foreign ships."

The two witnesses referred to that provision of the act which would enforce preferential rates to seaboard for exports using American ships.

Wife Confesses She Helped Kill Husband Found Beneath Water

WAXAHACHIE, Tex., May 18.—An alleged confession to the slaying of W. R. Sims, whose body, heavily weighted down with iron, was found in the shipping canal near Goose Creek last Saturday, has been obtained from Mrs. Laura Sims, wife of the dead man, and Earl Beavers, his brother-in-law, according to T. A. Bindford, sheriff of Harris county. Beavers, Mrs. Sims and another woman, and the latter's daughter, are in jail here, where the alleged confession was made last night.

Bucketing Charges in N. Y. Will Test Power of New Law

NEW YORK, May 18.—The American Cotton Exchange went on trial in the state supreme court today on an indictment charging "bucketing of orders." The indictment, which followed a John Dow investigation in the magistrate court, alleges that the Exchange "bucketed" or failed to execute approximately 80 per cent of the orders received from the south. The trial is regarded as a test of the new state bucketing law. The maximum penalty upon conviction is a fine of \$5,000. For a second offense the exchange's charter could be abrogated.

IN THE OIL FIELDS

Preparations are being made upon a location in Section 28-5-5, in the Bebee field, for spudding in a new well about June 1, according to best reports available. The name of the company has not been disclosed but it is understood to be a Tulsa company.

Plumb Near Death

Attorney Glenn Plumb.
Glenn Plumb, attorney for the railroad brotherhoods and author of the Plumb plan for the operation of the railroads on a profit sharing basis, is reported to be fighting bravely for his life at his home in

UNITY OF ACTIONS SOUGHT ON BONDS

Oklahoma, Osage and Adair
Counties To Co-operate
With Ada on Deal.

Attorney General George F. Short has under consideration a plan for securing unity of action of the various counties and cities in Oklahoma involved in purchases of Pershing bonds, Lowery H. Harrell, city attorney, has announced following a recent conference with Short.

This, it is expected, will prevent a duplication of action at any two places and will eliminate conflicts in the united attempt to realize something upon the expenditures for Pershing improvements, the conferees believe. Although nothing definite has been announced concerning plans of Oklahoma County, Osage county, Adair county, and the city of Ada, Harrell has intimated that there is a plan under advisement which will be divulged when legal steps are actually opened.

Adair county has only recently become a party to the litigation. It was the first one, however, to open criminal action against the Green construction company, alleged sellers of the Pershing bonds, resulting in the arrest of Tom Green, president of the company.

CHILD WELFARE MEET CALLED BY LABOR ORDER

(By the Associated Press)
WASHINGTON, May 18.—The executive council of the American Federation of Labor yesterday instructed President Gompers to call a conference here of the organizations interested in child welfare for the purpose of forming a campaign looking to the adoption of a constitutional amendment which would abolish child labor.

Tinch Announces To Oppose Miss Alice For Congress Seat

(By the Associated Press)
MUSKOGEE, May 18.—Gus Tinch oil operator and former newspaper man, announced his candidacy today for congress from the second district on the republican ticket. He is the first republican to announce against Miss Alice Robertson, present incumbent and a republican. Tinch says he will advocate a soldier's bonus and the repeal of the Volstead act which he says "is making criminals out of the people."

There are three democratic candidates and one socialist in the race.

STEEL LEADERS INVITED TO MEET DAUGHTERY

(By the Associated Press)
WASHINGTON, May 18.—Attorney General Daugherty today invited representatives of the eight steel companies named in the senate resolution directing an inquiry into a proposed merger of independent companies to meet him Saturday to discuss their plans for the proposed merger.

HOSPITAL BURNED TO GROUND WHILE VICTIMS SHRIEK

Chronic Ward Isolated By
Collapse of Pavement;
Nurses Frenzied.

INSANE ARE REMOVED

Doctors Visit Helpless First
and Carry Many Away
To Safety.

(By the Associated Press)
ROME, May 18.—A disastrous fire swept the historical hospital of Santo Spirito, one of the most ancient and picturesque charity institutions in Rome, early today. Collapse of the pavement isolated the chronic ward. Sixteen bodies had been extracted from the burning ruins at 7:30 o'clock.

The institution accommodates nearly 5,000 inmates and includes a hospital for the insane, founding home and a refuge for aged and infirm persons.

The fire broke out shortly before midnight in the laundry. At first it seemed insignificant, but it spread rapidly to neighboring wards, each containing 30 chronic sufferers or infirm patients who were seized with panic. The shrieks of the sufferers mingled with the crackling of flames while the atmosphere became dense with smoke.

Nurses and doctors quickly cleared the bed-ridden from one ward, and in the next ward three of the patients crawled out. Neighboring firemen responded to the call, but at the moment of their arrival the electric lights were extinguished adding to the horror of the situation.

As the immense wooden beams of the hospital fell there was a heavy grinding noise and the pavement collapsed, burying 20 of the chronic patients and rendering access to the wards impossible.

Carabinieri, royal guards, nurses and doctors made heroic efforts to save the patients, rushing through the smoke and fire. They brought out 12 all of whom, however, were dead from suffocation. Several of the rescuers were injured. The two wards were destroyed but the firemen saved the remaining buildings.

Sixteen bodies already have been recovered. Four other patients were badly burned and one dangerously injured.

The hospital of Santo Spirito is situated on the banks of the River Tiber not far from the vatican grounds. It was founded by Pope Innocent the third, in the Twelfth century, enlarged by Pope Innocent fourth in the Thirteenth century and rebuilt under Sixtus fourth in the fifteenth century. The altar in the hospital chapel was designed by Andrea Palladio and is reputed to be the only work of this artist in Rome.

Engineers Arrive To Build Pontoon Bridge at Marlin

MARLIN, Tex., May 18.—A detachment of army engineers was expected here today to construct a pontoon bridge across the Brazos river to replace the Bolton Bridge which collapsed Tuesday under the strain of flood waters and as a result of which six persons are dead or missing. Recovery of bodies of two negroes late yesterday brought the known dead to three, the body of Mrs. E. A. Mosely of Beaumont having been found previously.

Pearl Davis was arrested yesterday and made bond for \$150 before Justice of the Peace H. J. Brown for his appearance June 5 to answer to a charge of petit larceny growing out of an alleged theft of chickens.

FIGHT FANS INVITED TO WATCH MEN TRAIN

Manager Dixon of the Ada fighters who are to go into the ring May 25 has extended an invitation to all fans to come to the American Legion training quarters Friday evening and watch the men work out. Arch Cooper is improving daily and will go his limit tomorrow, he said. Stone, Adair and Sparks will take him on for successive rounds.

A. N. Harrison and daughter, Lucile, will leave tomorrow for Dallas and other points in Texas for a visit with friends.

BIBLE THOUGHT OF TODAY

GOD RULES WITHIN:—I will put my spirit within you, and cause you to walk in my statutes, and ye shall keep my judgments, and do them. And ye shall dwell in the land that I gave to your fathers; and ye shall be my people, and I will be your God.—Ezekiel 36:27, 28.

LODGE'S FIGHT FOR RE-ELECTION

The race of Senator Lodge of Massachusetts for re-election bids fair to become one of the outstanding political events of the year. The Democrats of Massachusetts are preparing to wage a relentless campaign against him and the vote will give the nation a pretty fair index of the sentiment of the voters towards the senator's course. Lodge was a bitter opponent of Woodrow Wilson and his policies and seldom passed up an opportunity to throw obstacles in the way of the president. Now it is his turn to face the voters on his record and the verdict may have considerable influence on the presidential campaign two years hence. Ordinarily Massachusetts is strongly Republican, but occasionally the Democrats carry it. Only four years ago the Democrats elected Walsh to succeed Crane in the senate and a number of times in recent years have elected a governor. The leaders hope to repeat these successes this year and retire Lodge to private life. On the other hand, Lodge likes his job and will fight vigorously to hold it.

Lodge has been a member of one house or the other for more than thirty years. He first came into prominence in 1890 when he introduced the notorious "Force Bill" which would have taken elections out of the hands of the states and put them under control of the federal government. This measure passed the house but was pigeon-holed by the senate after a long and bitter fight by the Democratic minority.

FOOLING THE PEOPLE.

A cartoon in a current magazine explains why there is so much in the governments to criticize adversely. On a stump a clown candidate for re-election to congress is giving the people a regular hoe down of a dance and a song about how he loves the "dear people". At one side is a big supply of garden seed, pork, etc., which a sign states is distributed free to the voters at the expense of the tax payers. On a platform near at hand is a level headed sort of candidate who is trying to get the ear of the people to explain conducting the government on business lines. However, the crowd is hopping about the clown and taking his assertions of his devotion to the interests of the people at 100 cents on the dollar, completely ignoring the man who has some business ideas and who has an ambition to give the country, honest and efficient service. It has ever been thus, for the demagogue can make the voters believe black is white for a long time. By the time he has been found out he has done an incalculable amount of damage to the country, having represented the interests of no one but himself and having no further ambition than being able to hold onto his job. Barnum said the people like to the humbugged and the demagogue in politics is an artist at the game.

BULL MOOSER WINS

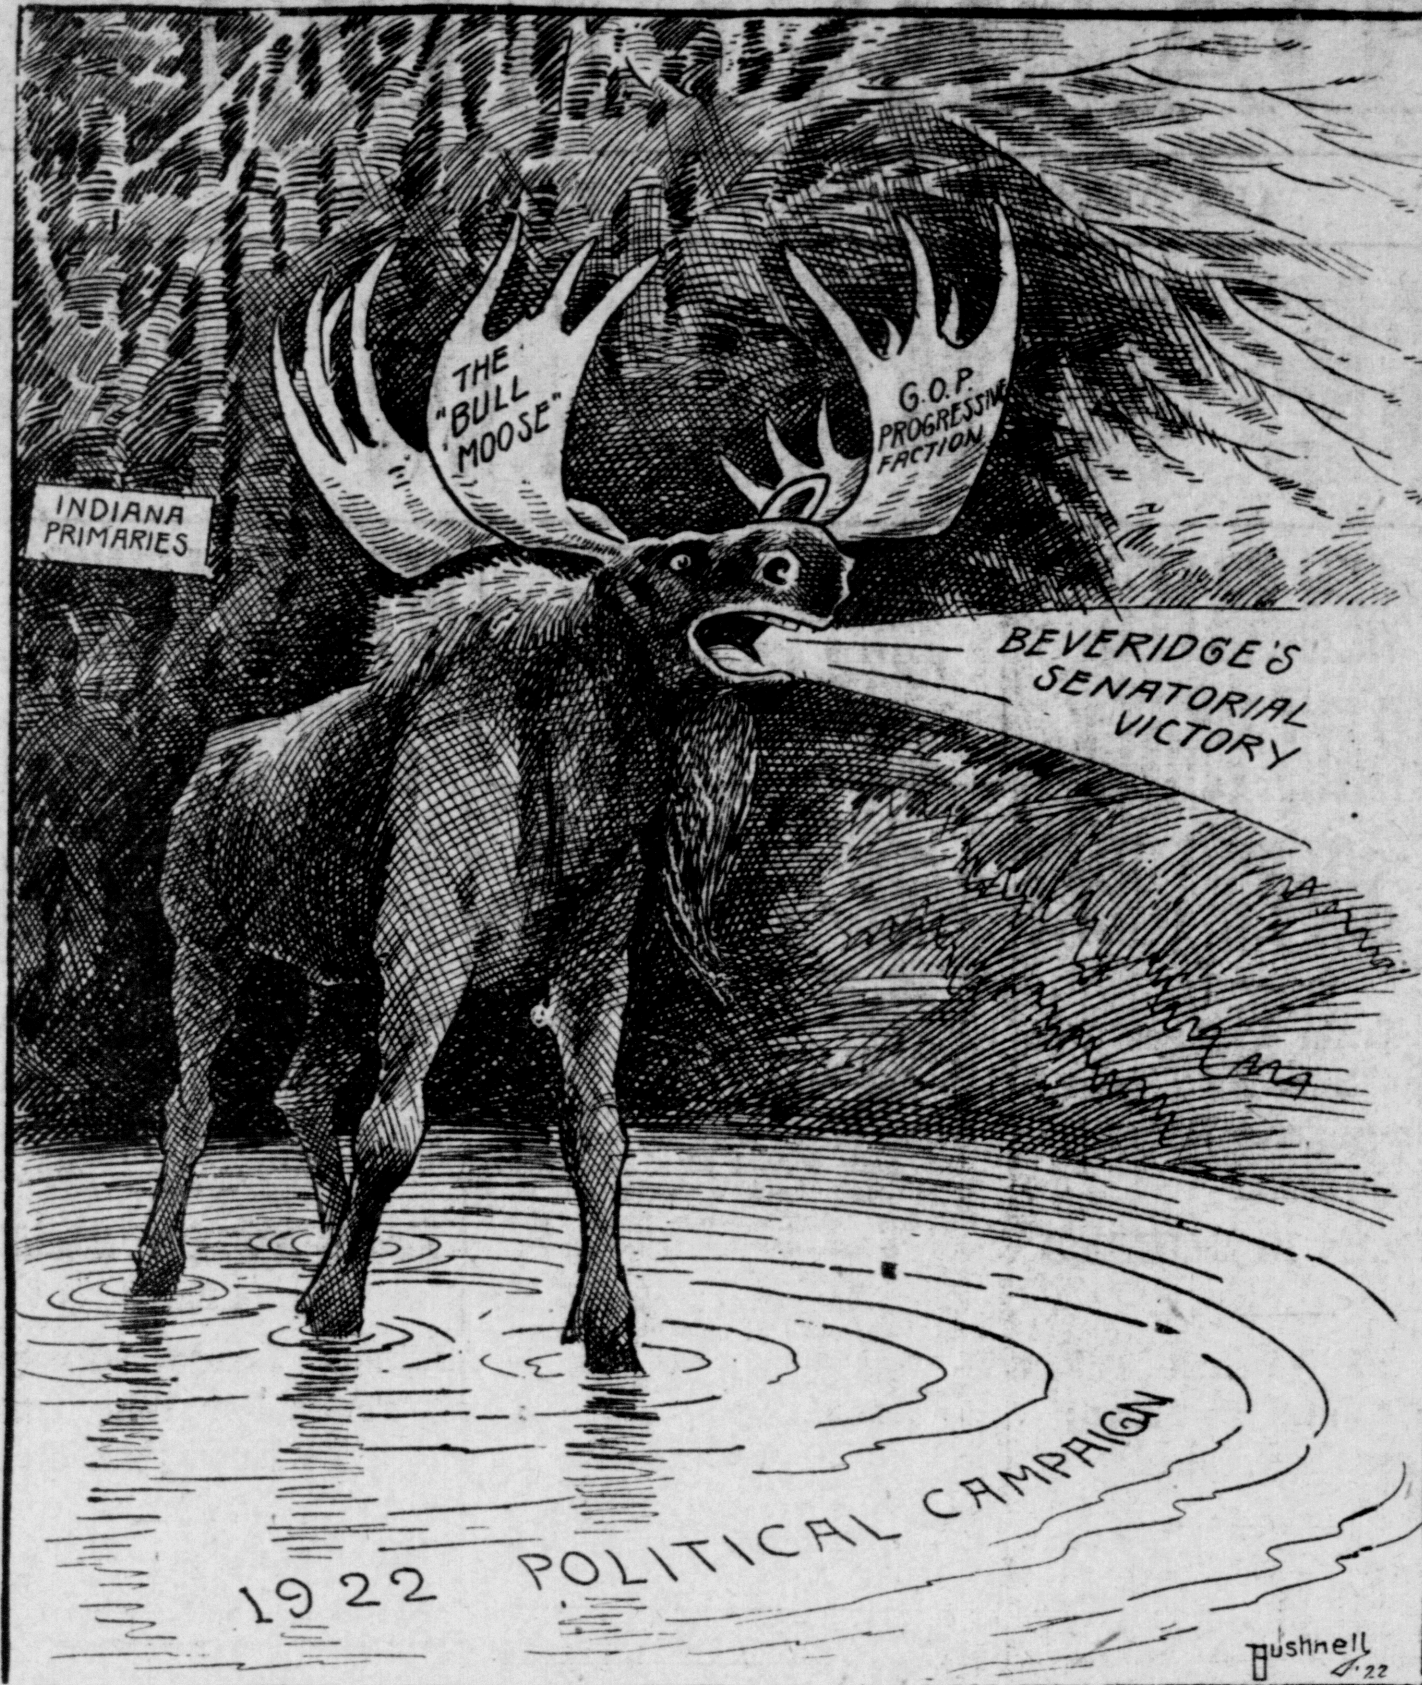

Gifford Pinchot has apparently won the Republican nomination for the governorship of Pennsylvania. Times have certainly changed in that boss ridden state when a nod from two or three bosses was sufficient to make the entire party get down on its marrow bones and do honor to any command given. Pinchot was a close friend of Roosevelt and an ardent Bull Moose in the balmy days of that party. He has never been in favor with the machine politicians and his victory indicates that the rank and file of the people are tired of machine rule and are thinking for themselves. Heretofore the strength of the Republican party lay in the readiness of its members to take their orders from the big leaders, but now that the biggest leaders are dead and none to take their places, the people are showing that they expect to have some voice in the party organization. When they no longer follow their leaders Harding will find himself in a hole. With Indiana and Pennsylvania as examples of the temper of the people. The prestige of the Old Guard is badly damaged.

MANUFACTURERS FOR PROHIBITION

The Manufacturer's Record recently asked 1,500 manufacturers of the United States for their views on the value of prohibition. Not one of the replies favored the return of the saloon and 98.5 percent favored prohibition in one form or another. A small number thought a few modifications of the present stringent law might be made to advantage, but 85 percent expressed themselves as favoring the present law and its rigid enforcement. Some were most emphatic in their expressions of approval of the Eighteenth amendment and well pleased with the results, even while admitting that there had been violations of the law. The sentiment was that even though matters could be better, prevailing conditions are far better than they would be under the rule of the legalized saloon and the corrupt politicians who got in their best work among the habitués of these places.

Now that it has quit raining, what will be next to grumble about? The hot weather?

THE CHALLENGE TO THE OLD GUARD AND THE ANIMAL WAS THOUGHT TO HAVE BECOME EXTINCT

The Forum of the Press

The Ladder of Success

(Hugo News)

The life history of John H. Patterson, whose death occurred a week ago, will be read with keen interest by farm boys. Mr. Patterson was once a farm boy. He became the head of one of the greatest manufacturing enterprises in the world. There is inspiration, declares the Detroit News, in this for every boy who thinks he is held back by circumstances. The little details, the chores, the lack of desirable comforts, the routine of duties all seem pretty irksome to the average boy and many times they appear to be hindrances in the way of advancement. Many a youngster who has to do hours of work before and after school thinks if he had the time for study enjoyed by some of his classmates from more prosperous homes, he would have a better chance in the world. It has not always so worked out.

The little account given by the mother of Mr. Patterson of her son's boyhood will strike a responsive chord in the hearts of many boys. "He used to be called at 4 o'clock in the spring, summer and fall," said she. "He had to make his grandfather's fires, carry up enough wood to last all day, split kindling and get it ready for the night. After breakfast he would turn out the calves, put up his dinner and go to school. In the evenings it was necessary to drive up the calves, feed and bed them, carry up wood to fill the boxes and after supper to study lessons."

No doubt that seemed a pretty prosaic lot of requirements to the boy who was to become a great manufacturer and millionaire. So far as he could see there was not much preparation for a life of splitting kindling, waiting on grandfather and caring for calves. The essential thing hard for boys to see is that in such duties there is service, discipline and training in meeting necessities. All the problems of later life differ from this in degree only, not in kind.

The average American boy of today lives in a country of greater opportunities than those which came to Mr. Patterson. There are more and greater problems to solve; greater need of courage, strength and self control, better chances for success.

But let no youth scorn the day of little services or undervalue the discipline of humble duties. By such steps have America's great ones risen.

Papa and Mama.

(Enid Daily News)

Strange things happen in the jungles. Carveth Wells, explorer and lecturer, tells about the horn bills, long-tailed birds so big they often measure five feet from tail to beak.

In Malay jungles, Wells says the male hornbill during the mating season drives the female into a hollow tree, then walls up the opening with mud.

This protects Mama Hornbill against enemies. She stays in her jail until eggs are laid and hatched. The Pa lets her out. Meantime, he has fed her through a small opening left in the mud.

He gathers the food by using his saw-toothed beak to cut fruits and flowers from their stalks. Maybe that's where man originally got his idea for the saw, now used to cut boards.

Not necessary to go as far as Malaysia. In Canada, when timber wolves mate, Mrs. Wolf hunts a cav-

ern with a roof that slopes downward to meet the floor in a V-shape.

She pushes her young far back into the cave to keep Pa Wolf from eating his family. Mother Wolf can get at the babies easily, with her small body. Pa Wolf, having a larger body, cannot wedge himself in far enough to reach them.

Wise nature that makes Mother in far enough to reach them. Advance, her husband's appetite and how to baffle it.

Seals swim north to rookeries or breeding grounds. The male seals go first, house-hunting. After they have located good homes, near plentiful food supply, messengers swim back to summon the cow seals.

In a baby ward of a hospital, you see infants, each in his own bed, all very orderly. Mother Bee does the same, builds an apartment house of cells, with wax walls. In

each cell, one egg is laid and one individual raised.

Wasps have the same system, manufacturing in their bodies the paper pulp with which they make cells. Ants build their nurseries in the earth or rotten trees, with many bedrooms, also corridors through which Mother Ant chases about peering into each room to see that baby is O. K., then on to the next.

You cannot explain these peculiar things in nature, any more than you can explain why a male peacock always has four wives, never more, never less.

All forms of life seem to revolve around the function of having children.

Considering the intricacies and far-sightedness of what we call nature, it is bewildering how any man can fail to believe that a Supreme Intelligence is behind it all.

Writer To Revisit Middlewest States Where He Got Ideas

IOWA CITY, Ia., May 9.—Hamlin Garland of New York will revisit the middlewest, from which he derived local color for a number of his novels, on the occasion of the fifteenth annual meeting of the Mississippi Valley Historical Association here May 11 and 12. Mr. Garland is to be one of the speakers at the meeting. Others will include W. F. Buckley of New York, formerly of Mexico City, president of the American Association of Mexico; Prof. W. P. Shortridge of the University of Louisville, Louisville, Ky., and Prof. Charles W. Hackett of the University of Texas, Austin, Tex. Kentucky and Mexico will afford subjects for the addresses of Professors Shortridge and Hackett. Mr. Garland while in this region will address several state universities, and will be in and about Chicago, where at one time he made his home, for two weeks. The novelist's career is linked with this state by his graduation from Cedar Valley Seminary at Osage, Ia.

"The Recognition of the Government of Porfirio Diaz" will be the subject treated by Prof. Hackett of the University of Texas. Prof. Shortridge of the University of Louisville will deal with the successful efforts to keep Kentucky in the Union at the time of the war between the states, and with the historical importance of those efforts.

A negro man and woman were in police court this morning to answer questions regarding a shooting affair in a negro restaurant in dark town last night. Both were ordered to return again at four o'clock when they will be further questioned. Evidence this morning was a scuffle while the two engaged in a scuffle. No one was hurt. Charges of disturbing the peace may be filed against them, police said.

NEWS NOTES FROM MOVIELAND

Mrs. James Whipple and her little daughter, Armide Nana Whipple.

James Whipple and family have solved the high cost of living.

It is just another case of "they do it in the movies." Whipple is assistant director to James Young in the picture "The Masquerader," which marks the debut of Guy Bates Post as a screen star. Mrs. Armide Ayraud Whipple and little Armide Nana, Whipple's wife and daughter, will both be seen in "The Masquerader."

Other pictures in which the Whipple family en masse have worked are "Without Benefit of Clergy" and "The Infidel."

Whipple's own life reads like a motion picture script. When he graduated from college he took his bachelor of arts degree to the

vaudeville stage, where he spent two years in a slack-wire and juggling act. Then he traversed the globe as confidential secretary to Dr. Leon Landone. He next signed up on a notorious gun-running schooner which led him on many turbulent adventures among the warring Balkan states. Followed a brief period with the U. S. Army on the Mexican border. They Whipple left his exciting life and went to Cuba to represent an American firm. There he met and married the pretty little French-Spanish daughter of a plantation owner. At a call from James Young, Whipple's brother-in-law, the young couple left for Los Angeles and their present picture career.

What New Films are About.

In "Evidence" Elaine Hammerstein impersonates an actress who marries into society and makes her snobbish relatives like her.

Owen More, in "Reported Missing," experiences the thrills of being shanghaied, taken to sea and wrecked in a studio typhoon.

Engene O'Brien has a new picture based on certain phases of prison life in which he is identified, not by number, but by the extremely exclusive and rare name, "John Smith."

In "The Referee," Conway Tearle impersonates a rare sort of prize fighter. Besides punching everyone in sight he punches a time clock.

Marriage Note.

George Chesebro married Sophia Barman in Judge Hanby's court the other day. A real lively scene, too. Then they departed for the Yosemite on a honeymoon, where George's company will join them to make exteriors in the great park for his mounted police serial of the northwest.

Divorce Note.

Connie Talmadge is suing her tobacco king husband for divorce.

With the Women of Today

By EDITH MORIARTY

Frances Parkinson Keyes, whose personality in the series of "Letters from a Senator's Wife" has been introduced to women magazine readers through the country, is the wife of Senator Henry Wilder Keyes of New Hampshire.

As vice president of the League of American Pen Women, Mrs. Keyes will head the organization in the absence of Mrs. William Atherton DuPuy, who sails for Europe soon.

Mrs. Keyes is a southern woman. She was born in Virginia, but educated in Boston, Switzerland and Germany. She is a member of the D. A. R., the National Society of Colonial Dames and the Children of the American Revolution, of which she is the national historian. She sees Washington as perhaps no other woman in this country sees it. Her letters are inside stories of the inner circle at the very center of events.

In addition to her letters she has written "The Old Gray Homestead."

Radcliffe Boasts.

Radcliffe college, Cambridge, has produced in its short life a list of noted graduates, among others, Maud Wood Park, president of the National League of Women Voters; Katherine Fullerton Gerould, author; Lucia Russell Briggs, president of Milwaukee Downer college; Helen Keller, author; Inez Haynes Irwin, author; Elsie Singmaster, author; Beulah Marie Dix, novelist and scenario writer, and Josephine Preston Peabody, poet. Writers of drama, poetry and literature, physicians, lawyers, business women, teachers and stateswomen have been prepared for their work by a college of which it has been justly said that "from the beginning, the proportion of its unrestricted income to its annual accomplishments has been incredibly small."

Women Want Soap Line Instead of Bread Line.

A group of New York society women headed by Mrs. Newbold Le Roy Edgar have started a movement

Vatican, the pope's residence, in which he is a voluntary prisoner, is not a part of the kingdom of Italy.

THE YOUNG LADY ACROSS THE WAY

Copyright, 1922.

The young lady across the way says she does hope the house will ruffly the treaties more promptly than the senate did.

Mrs. Frances Parkinson Keyes.

to provide bathing stations in New York and other cities, so that men temporarily out of work can keep clean and retain their morale while hunting jobs.

Mrs. Barnett Andrews, one of the members of the committee makes this plea: "Won't you help us get the men off the park bench? We are not offering them charity. Animal instinct begs for food, but it is the spark of manhood still alive that asks for a bath. The men in whom we are interested want to be clean, that's all. They're worth saving."

British Women Have Own "Smokers."

Owing to their crowding into the smoking compartments of first as well as third class coaches the railroads have begun to provide smoking compartments on trains for women only. They have discovered that the non-smokers are scorned by both sexes and that men do not give up their seats to women smokers.

FRISCO.

Rev. C. B. Holland filled his regular appointment here Sunday and Sunday evening.

Bulah Colbert, Bernice Wise and Jewell Elmore of Pleasant Hill attended the Frisco Sunday school, Sunday.

Ocie Babb visited her aunt Mrs. Abbott Wednesday.

Siglar Riddle is visiting friends in Frisco.

Barney Abbott and Ociel Babb was in Frisco Sunday evening.

Zadie Neal took supper with Cleo Jones Sunday.

Mr. and Mrs. Bud Carrell was out of town visiting Saturday and Sunday.

Inez Harrison and Addie Babb took supper with Thelma Ingram Sunday.

Mr. and Mrs. Roy Estes were shopping in Stonewall Saturday.

Mrs. Duval, Mrs. Norrell and Mr. Hill were present at the girls' and boys' club Friday, May 12. Mrs. Norrell made an interesting talk on the planting of trees and flowers.

Mrs. Duval, Mr. Hill and the president of the club, Linzy Morin made talks on different subjects. The talks were enjoyed by all the club members.

There was no program as the program committee had not met to arrange a program, but we want Mrs. Duval, Mrs. Norrell and Mr. Hill to come the next meeting and bring some one with them as we expect to have a program.

Let a News Want Ad get it.

Hat, Frock and Parasol In Gingham and Organdie

By MARY BROOKS PICKEN

SOME dressmakers say Mrs. Webster wasn't around when the dictionary was made. Had she been, more comprehensive and definite sewing terms would have been supplied. But surely some good woman knew women's needs when gingham was created, for of all the fabrics popular with rich and poor, gingham holds first rank. Although much favored for bathing suits, it has not lost any of its popularity for dresses, and some of the smartest hats shown in many exclusive shops are developed of gingham.

Lavender gingham with white organdie is used for this unusually attractive frock. The design is a popular type and lends itself to many materials and varieties.

The blouse is as plain as a smock, but the smart line of the collar and cuffs makes up entirely for its simplicity. The straight skirt and generous sash add also to the general attractiveness.

A gingham hat is quite an achievement. Of course, it takes a good buckram shape that is becoming, but gingham shapes wonderfully well over the buckram.

Some who are handy at cutting out and sewing take a parasol whose covering is worn out, use the old pieces as a pattern, cut and French seam each section, and make a novelty rosette for the top. In this way, parasol coverings may match each summer frock.

BROWN IS CANDIDATE FOR JUSTICE OFFICE

Justice of the Peace H. J. Brown today announced his candidacy for re-election. He has filled his present office since statehood and is one of the oldest justices, in point of service, in Oklahoma.

In announcing his decision to seek reelection, Judge Brown said he was prepared to make no lengthy statement but rather would leave his case in the hands of voters whom he has served for many years.

"My qualifications and my record are known," Judge Brown said, "and I merely leave it up to the voters to pass judgment on what I have done."

Friends of the judge declare his services always have been conscientious and efficient and assert that his honesty and fair-mindedness have never been questioned. He is a pioneer of Ada and Pontotoc county.

A SMILE A DAY

Pome.

Conan Doyle knows lots about The future world, he does; But not so much as he will know When he's a use-to-be.

—Houston, Tex., Chronicle

An Illinois city has this slogan:

I want to be In Kankakee, —which has led an Indiana city to start another:

I want to go To Kokomo

Seems to be about time for an Oklahoma town to follow this up with:

I want to stay In Chickasha.

Towne: You are right there. Why that fellow could jump from the frying pan into the fire and put out the fire.

Augusta, Me., one of the four state capitals bearing the names of women, was named in honor of the daughter of Gen. Henry Dearborn.

IMPORTS PLAY IMPORTANT PART

Chicago Banker Says Prosperity Depends on Both Imports and Exports.

PHILADELPHIA.—Declaring that the prosperity of the country depends in part upon its imports, Dr. Walter Lichenstein, executive secretary of the First National Bank of Chicago told the Ninth National Foreign Trade convention that to "have large exports there must be correspondingly large imports, and that with the increase of both our prosperity will be enhanced."

He also opposed full payment of the allied debt. "Exports are necessary for the prosperity of the country," said Dr. Lichenstein, "unless, in deed, we are willing to face an indeterminate period during which we should suffer stagnation and social and political upheaval. Ultimately we can be paid for our exports only by receiving imports from foreign countries. I think that if we look far enough ahead, the danger of 'dumping' (of foreign goods on American markets) is very much exaggerated."

"If, however, we wish really to increase the danger of competition in our own markets, all that will be necessary for us to do is to insist upon full payment of the debts due us from our late allies. When we require payments of this kind the effect is the same as an over-estimation of our imports and a checking of our exports, for the payment of these huge debts means the exportation of foreign goods to us in enormous quantities, that being the only way in which these payments can be made."

"If we have permanently a very high protective tariff, which will check imports into this country to a marked degree, and our exports go on as they did during the last years of the war and immediately following, then we shall have an influx of gold which will increase ultimately our currency and thus in the final analysis affect our prices and prevent the exportation of our goods. In a sense that is exactly what has been taking place."

Asserting that there is no special advantage in being a creditor nation, Dr. Lichenstein said, "We have still vast undeveloped tracts here at home and it will be a long time before it is likely that we shall receive much greater returns from foreign investments than we do from domestic ones."

Declaring that agricultural prices and profits are influenced by the foreign market, and that during the last fiscal year about thirty-seven percent of the wheat crop was exported, and in 1920 about forty-two percent of the cotton crop, Dr. Lichenstein said:

"The last census would indicate that somewhere between forty and forty-five percent of the people of the United States are still engaged directly and indirectly in agricultural production. It is idle talk of any return to normal conditions in this country as long as one half of the working population is unable to market its product at proper prices."

A New York investment securities corporation has undertaken to float in this country a loan of a billion marks for the city of Warsaw.

LABOR LEADER'S WIFE BELIEVES HIM INNOCENT

Mrs. Timothy Murphy.

While Timothy ("Big Tim") Murphy languishes in a Chicago jail, practically friendless, two persons are convinced that he is being persecuted. The wife of the chief of the gashouse workers believes her husband innocent. Also his mother, Mrs. T. D. Murphy, Murphy is held for the murder of two policemen in the Windy City labor war.

Chicks Turn Upon Ada Nine and Win Second Game of Series

POOR FIELD SUPPORT FOR VERNON ALLOWS VISITORS TO SPURT

Locals Overcome Lead But Take 6-3 Defeat on Final Count.

Chicks turned on Ada yesterday with deadly intent and before the locals could recover from an opening attack, put three men across the plate in the first frame, and then held Ada to three runs for the remainder of the game. Winning 6 to 3. Many errors, poor hitting and lack of teamwork made the game look like vacant lot stuff compared with the first of the series of two games with the Chickasha Oklahoma League team the day before.

Young Thornton of the chicks worked well on the mound yesterday. He was poorly supported in the field, and was forced to get himself out of several bad places by striking out the batters. He got 14 strike outs. Frisco Vernon also was poorly supported in the field. He lost his game not only through errors in the field but because his team mates failed to hit in enough runs. Thornton men hit hard yesterday, taking Vernon for ten singles.

Manager Green was not disappointed by his men's playing yesterday. Such slumps are to be expected, especially this early in the season, he said. Muskogee independent club will be here Sunday for the sixth game this season. The visitors are rated as an extra good amateur team, playing up among Class D league clubs. The game is called at 3:30.

Score by innings:

First Inning.
Chicks—Dugan was out, R. Waner to Rutledge; Lisle took first on R. Waner's error; Kitterman singled to right field; McClain tripled, scoring Lisle and Kitterman; Mabery took first on Rutledge's error; Mabery was caught off first, and run down between bases, Fain to Rutledge; McClain scored on Norman's error; Hale walked; Graham was out, Vernon to Rutledge. Three runs, two hits, three errors.

Ada—R. Waner retired on strikes; Fain came to the bench by the same route; Young was out, Thornton to Kitterman. No runs, no hits, no errors.

Second Inning.
Chicks—Fitzgerald was out, Young to Rutledge; Thornton flew out to Fain; Dugan tripled to left field; Lisle was out, Fain to Rutledge. No runs, one hit, no errors.
Ada—P. Waner took first on Hale's error; Rutledge singled to right field; Vernon walked, filling the bases; Morrison hit long fly out to McClain, P. Waner scoring on throw home; Norman struck out; West flew out to Mabery. One run, one hit, two errors.

Third Inning.
Chicks—Kitterman struck out; McClain was out, Rutledge to Vernon; Mabery singled and took second on Fain's wild throw; Hale singled through pitcher's box, ball hitting umpire; Hale caught off first, Vernon to Rutledge. No runs, two hits, one error.

Ada—R. Waner singled through short; Fain singled to right field; Young singled, scoring R. Waner; Fain scored on Mabery's error; P. Waner walked; Rutledge, Vernon and Morrison sent to bench on strike outs. Two runs, three hits, one error.

Fourth Inning.
Chicks—Graham was out, Norman to Rutledge; Fitzgerald was out, R. Waner to Rutledge; Thornton struck out. No runs, no hits, no errors.

Ada—Norman grounded out to Kitterman; West was out, Thornton to Kitterman; R. Waner flew out to Kitterman. No runs, no hits, no errors.

Fifth Inning.
Chicks—Dugan given base on balls; Lisle forced Dugan at second; Vernon to R. Waner; Kitterman singled through short; McClain took first on R. Waner's error, filling bases; Hale walked, Dugan scoring; Graham struck out. One run, one hit, one error.

Ada—Fain was out, Mabery to Kitterman; Young flew out to Hale; P. Waner was out, Hale to Kitterman. No runs, no hits, no errors.

Sixth Inning.
Chicks—Fitzgerald flew out to Fain; Thornton was out, Fain to Rutledge; Dugan walked; Dugan was caught off first, and run down between bases, Fain to Rutledge. No runs, no hits, no errors.

Ada—Rutledge singled over third; Vernon walked; Morrison struck out; Norman took first on fielder's choice; R. Waner grounded out to Kitterman. No runs, one hit, no errors.

Seventh Inning.
Chicks—Lisle flew out to R. Waner; Kitterman was out; Ver-

The Mau Behind the Bat

Ray Schaak waiting for the next one.

This is the man who caught Charlie Robertson when that rookie hurled his no-hit, no-run-reach-first game for the White Sox the other day and who must be given credit for much of the remarkable success of the young Sox hurlers this year. He is Ray Schaak, called the best catcher in the game by Sox fans and ranked among the greatest by all baseball followers.

By NORMAN E. BROWN
Once Too Often.

That's the moral that might be written after the account of the recent lightning K. O. of Ted Lewis by Georges Carpentier. The history of Lewis' career shows that the Englishman had gone out of his class several times to tackle heavier opponents before he met Carp and always had come out on top. He just bit off more than he could chew when he tackled Georges.

According to the dope at hand, Lewis underweighed Mike Gibbons by ten pounds when he gave Gibbons a beating six years ago. Lewis toyed with the clever middleweight. Ted took on the slugging Bryan Downey and more than handled the heavier mauler.

Lewis licked Jack Bloomfield, a light-heavyweight and a clever one. Probably his best performance was against Roy McCormick a short time ago. McCormick, who weighs a bit more than Carpentier, had defeated Bat Levinsky and held his own with Tom Gibbons. Lewis knocked out McCormick in easy fashion.

Mike O'Dowd, heavier and as fast as Lewis, outpointed the Britisher a while back, but Lewis had a reasonable alibi. He had been sick and was not in shape when he forced himself to go on against O'Dowd.

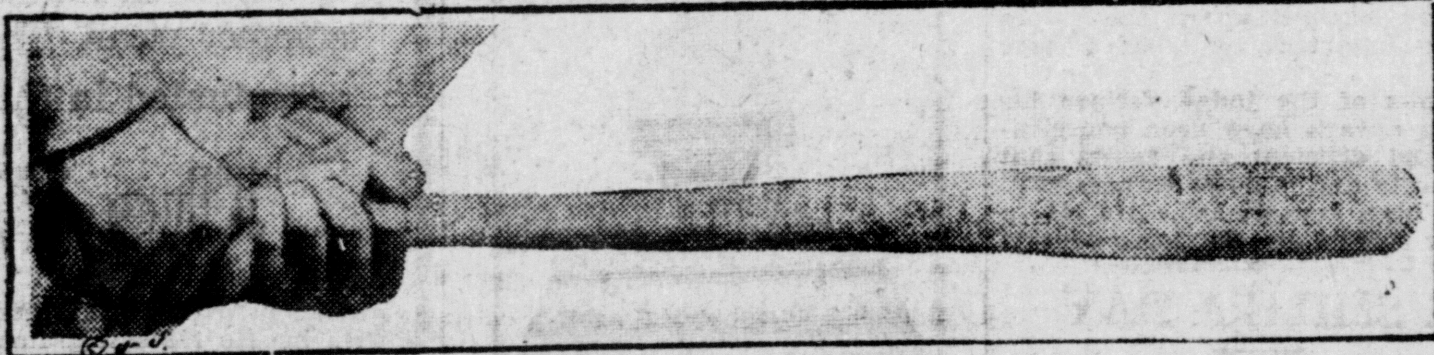

Lewis underestimated Carpentier and met his Waterloo.

Mrs. Elsie Lempke of Wilmington, N. C., is the manager of the largest lumber mills in America.

Can His Eyes Still Choose 'Em

And His Bat Swat 'Em Out?

A close-up of Babe Ruth's lamp and his big bludgeon.

By NORMAN E. BROWN
Babe Ruth, king of home run clouters, will swing into action May 20, or within a day or two of that time, if Commissioner Landis sees fit. And as the time approaches the fan universe is discussing the probabilities, coincident with his return.

Will the Big Babe start slugging homers with the gusto he showed last season when he tolled off fifty-nine over the season's campaign?

Will he immediately draw the limelight away from Kenneth Williams, demon circuit hitter of the league during the Babe's absence? Or will he find that his loyal and changing condition have ruined his chances of repeating?

There is absolutely no basis on

non to Rutledge; McClain singled through second, going to second on Vernon's error; Mabery walked; Hale grounded to Young, forcing McClain. No runs, no hits, one error. Reed substituted for Norman, who had thumb broken.

Eighth Inning.
Chicks—Graham flew out to Vernon; Fitzgerald was out, R. Waner to Rutledge; Thornton was out, Fain to Rutledge; No runs, no hits, no errors.

Ada—Vernon took first on Fitzgerald's error; Vernon was out try-

ing to steal second, Thornton to Dugan; Morrison whiffed again; Reed took first on Hale's error; Harrison (hitting for West) whiffed. No runs, no hits, two errors.

Ninth Inning.
Chicks was out, R. Waner to Rutledge; Lisle singled through second; Kitterman sacrificed Lisle to second; Fain to Rutledge; McClain smacked out a homer, scoring Lisle ahead of him; Mabery singled; Mabery stole second; Hale struck out. Two runs, two hits, one error.

Ada—R. Waner flew out to Fitzgerald; Fain flew out to McClain; Young flew out to Lisle. No runs, no hits, no errors.

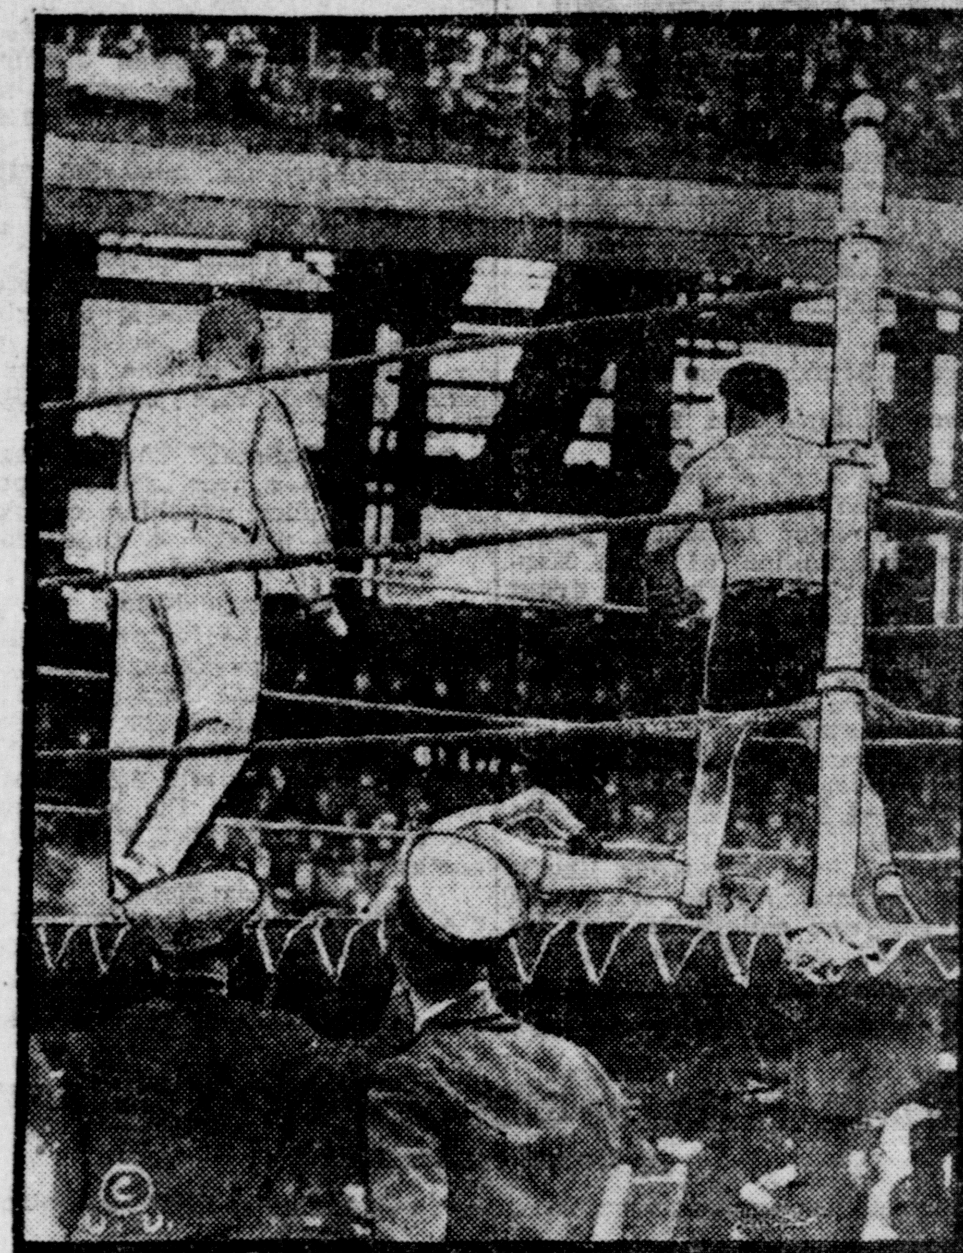

Score by innings:

Chicks 300 010 002—6 10 5
Ada 012 000 000—3 5 5
Batteries: Thornton and Fitzgerald; Vernon and Norman, Reed.

FIRPO HAS TERRIBLE WALLOP, NO SKILL. LAST VICTORY SHOWS; K. O.'S HERMAN

Jack Herman starting his fifteen-minute sleep caused by Firpo's upper cut. Referee is counting out Herman.

By NORMAN E. BROWN

"The Rip Van Winkle punch." That might be the name to apply to the deadly blow that Luis Firpo, Argentine heavy-weight sensation, packs in his hairy arms. The other day he added prestige to his name by knocking out Jack Herman in the fifth round at Ebbetts field, Brooklyn, and hit Herman so hard that Jack was dead to the world for fifteen minutes before he regained consciousness. Many ring fans believed him to be really deceased.

Two men like Firpo, turned loose in the ring together, would give a wonderful exhibition of how our forefathers fought back in the stone-age and the days when the cave-men had to lick the whole family to carry off a blushing bride.

As Luis climbed into the ring against Jack he would have made a perfect study for a painting of "The Primitive man." His black hair fell over his forehead. His face was covered with a short stubble of beard. His chest and arms were covered with a heavy growth of hair.

And when he swung into action! He struck from any and all angles with pile-driving force. He bored in like an angry bull, head low and bellowing.

He used the rabbit punch—barred in most ring circles—not be-

cause he wanted to violate the rules of ring etiquette, but because he knew not what the rabbit punch was. He knew only that he could beat a man down by striking him at the top of the spine with a hooked blow.

That Herman stood up as long as he did under the cave-man tactics of Firpo was a marvel to ringsiders. Then Firpo, seeking another way to drive at Herman, drove a right from the hip up—a terrific uppercut. It caught Herman on the jaw with the crunching thud of a battle-axe and Herman dropped like a barrel of tar.

Firpo did not know when the blow started that it was due to conage. It was one of scores of terrific punches that he had let go with the same intent—of knocking his man cold. But it did the job. As mentioned before, Herman had a beautiful nap of fifteen minutes.

Given a capable manager and trainer, Firpo will bear watching. He seems to have that which no other heavy outside Dempsey possesses—the fighting instinct that makes a man bore in instead of step back when he sees his opponent going down. As he is, if the men of old fought anything like he does a lot of good fighting went unrecorded in the Blue Book of Fisticuffs.

KNOT HOLE GANG TO STOP SMOKES FOR SEASON PASS

(By the Associated Press)

TULSA, May 18.—Wanto join the "knot hole gang"? If you are a boy and live in Tulsa you are eligible.

The "knot hole gang" is a bunch of boys who are not going to stand on the outside of the ball park this season and get a knot-hole view of the Western League baseball games. Their big brothers in the Rotary club have arranged with the baseball management to issue season passes to all Tulsa boys under the age of 16 years who will sign a promise not to use tobacco in any form and not tell lies or use profanity.

Tulsa Boy Scouts constitute the majority of the members of the "gang", but all boys in the city are eligible. The boys who want to see a game on any particular day meet at Boy Scout headquarters before the game and go to the ball park under the leadership of a scoutmaster. At the gate they show their passes, which are non-transferable, and occupy a section of the grandstand especially reserved for them.

College May Accept Post Season Games With Weatherford

That East Central college may accept the invitation of Weatherford Teachers to play a post college season baseball game finally to decide the state championship was the opinion expressed today of Coach M. Z. Thompson.

While East Central was eliminating teams in the state on her march to state championship, Weatherford was in Texas playing college teams of that state. On returning home and finding Ada teachers champs, the school immediately accepted Coach Thompson's challenge for a

ONLY ONE YANKEE IN BRITISH GOLF EVENT WHERE MANY BEFORE

Rosamund Sherwood To Be America's Contestant Against Field.

NEW YORK, May 18.—In contrast with last year when the United States Golf association sanctioned an invading team of seven star players for the event, only one American woman will participate this year in the British Women's Open Golf championship tournament at Sandwich, England.

Miss Rosamund Sherwood of St. George's club, Long Island, N. Y., will be the sole American competitor and she will enter strictly as an individual and not as representing any club or association. Miss Sherwood went abroad two years ago but injured her ankle in practice before the tournament opened. At that time she received of national mention for testing of a pair of crutches but, of course, she was not placed. Miss Sherwood is not the holder of any prominent championship and simply enters the tournament as an individual.

Different from 1921.

Miss Sherwood will meet Mrs. Fletcher of Wembley in the first round—there is no qualifying round. In the tournament will be the most finished players of England, Ireland and Scotland, 103 entrants in all, ten less than last year.

In the 1921 American sextet, were Miss Alexia Stirling, three-times winner of the United States title; Miss Marion Collins, present title holder, and such capable players as the Miss Edith Cummings, Sara Fownes, Louis Elkins, and Mrs. Ronald H. Barlow and Mrs. Thurston Wright.

The British Women's Golf championship, open to the women players of the world, was instituted in 1893.

ORDINANCE NO. 476.

Ordinance authorizing the Mayor of the City of Ada, Pontotoc County, State of Oklahoma, to call a special Election in said city for the purpose of submitting to the qualified Property Tax Paying Voters thereof the question of the issuance of the Bonds of said City for the sum of \$110,000.00 to provide funds for the purpose of purchasing site for Convention Hall and Community House, Constructing a Convention Hall and Community House thereon and purchasing Convention Hall and Community House equipment, to be owned exclusively by said city; levying and collecting an annual tax in said city for the payment of the interest on and Principal of said Bonds; and declaring an Emergency.

Whereas, it is deemed advisable by the City of Ada in Pontotoc County, State of Oklahoma, to purchase site for Convention Hall and Community House, to build a Convention Hall and Community House thereon and to purchase equipment for said Convention Hall and Community House, to be owned exclusively by said city; and

Whereas, the estimated cost for such purpose is \$110,000.00 and

Whereas, there are no funds in the Treasury for such purpose, and power is granted said city by Section 27 Article 10 of the constitution and laws of the State of Oklahoma, to issue bonds to provide funds for such purpose, provided that they be authorized by the properly qualified tax paying voters thereof voting at an election held for that purpose; Now Therefore

Be It Ordained by the Board of Commissioners of the City of Ada in Pontotoc County in the State of Oklahoma,

Section 1. That the Mayor be and he is hereby authorized and directed to call a special election to be held in the said city on the day of _____, 1922, for the purpose of submitting to the qualified property tax paying voters thereof the following proposition;

Proposition.

Shall the City of Ada in Pontotoc County, State of Oklahoma, incur an indebtedness by issuing its negotiable coupon bonds in the sum of \$110,000.00 to provide funds for the purpose of purchasing site for Convention Hall and Community House, erecting Convention Hall and Community House thereon, and purchasing Convention Hall and Community House equipment, to be owned exclusively by said City, and levy and collect an annual tax, in addition to all other taxes, upon all of the taxable property in said city sufficient to pay the interest on said bonds as it falls due and also to constitute a sinking fund for the payment of the principal thereof at maturity, said bonds to bear interest not to exceed the rate of five (5%) and one-half per centum per annum, payable semi-annually, and to become due within twenty-five years from their date.

Section 2. That such call for said election shall be by proclamation, signed by the Mayor and attested by

the Clerk, setting forth the proposition to be voted upon, the number and location of the polling places, the hours of opening and closing the polls and the names of the officers who shall conduct said election; that the ballot shall set forth the proposition to be voted upon substantially as set out in Section 1, hereof; and that the returns of said election shall be made to and canvassed by the county election board.

Section 3.—That by reason of said city being without an adequate Convention Hall and Community House it is deemed and hereby declared necessary for the preservation of the public health, peace and safety that such a Convention Hall and Community House shall be built without delay, and to that end this ordinance shall become operative immediately, wherefore an emergency is hereby declared to exist and this ordinance shall be in force and effect immediately from and after its passage and approval.

Passed and approved this 9th day of May, A. D. 1922.

W. H. FISHER, Mayor.

Attest: J. C. DEEVER, City Clerk.

Correctly enrolled this 17th day of May, A. D. 1922.

J. C. DEEVER, City Clerk.

them all on the same plane. It ought to be the purpose of all business men, bankers, merchants, and others to put prices on the level of wages instead of wages on the level of prices—because low prices mean distress, unemployment, and political disorders. High prices bring content and prosperity.

Not Uniform Drop.

If when prices tumble, they all tumbled together, the fall would not be disastrous, the speaker declared. Misfortune and panic follow an unequal drop in costs. Present industrial unrest has been caused on the farm by two conditions, he said: first, the farmer has had nothing to buy with; and second, he was thoroughly mad.

Those finishing colleges today may contribute to hastening the new normalcy, he reminded the graduates.

"And when we have gotten out of this depression, as certainly we shall, then be happy. But all our problems will not be solved. From reading history we are often led to believe that all the forests have been bridged and that all our troubles are over. Not so. Opportunities for work and service, a thousand times greater in number than ever existed before, lie ahead.

Production Swings Down.

"The curve of production is turning down. There are no new souls

DOINGS OF THE VAN LOONS—But Father hardly proved the Advantages of Higher Education.

By F. LEIPZIGER

APPLICATION OF PONTOTOC COUNTY, OKLAHOMA
For Additional or Supplemental Appropriations for
Fiscal Year, Ending June 30, 1922.

STATE OF OKLAHOMA,
County of Pontotoc, ss.
TO THE COUNTY EXCISE BOARD,
PONTOTOC COUNTY, OKLAHOMA:
GENTLEMEN:

In pursuance of the provisions of Section Eight (8), of Chapter 226, Laws of 1917, application is hereby made for supplemental and additional appropriations with which to meet the legal and ordinary expenses of Pontotoc County, Oklahoma, for the remainder of the fiscal year ending June 30, 1922, and for an order cancelling certain appropriations or parts thereof heretofore made for said year.

In support thereof, we do hereby certify:
FIRST: That certain of the appropriations heretofore made are inadequate to properly maintain the County for the current fiscal year, and that public welfare and needs of said county are such as to require for the remainder of said year, for legal and ordinary expenses, the additional appropriations as listed and set forth by purposes and amounts in Exhibit "A," attached and made a part hereof.

SECOND: That the appropriations as listed in Exhibit "C" hereof, aggregating \$2,118.47 are for the purposes less urgent and imperative than the additional needs herein presented.

WHEREFORE, Request is hereby made that an order be entered cancelling the said appropriations; and that the revenues so released, together with the above stated surplus, making the total available revenue of \$2,118.47 to be applied and appropriated to the several additional and supplemental purposes as set forth in said Exhibit "A" hereof.

WE FURTHER CERTIFY: That the aggregate amount of said proposed additional and supplemental appropriations is not in excess of the income and revenue produced and accumulated for the current year.

IN WITNESS WHEREOF, We have hereunto set our hands and affixed the seal of said County at the City of Ada, Oklahoma, this the 15th day of May, A. D., 1922.

J. I. LAUGHLIN,
H. C. STEPHENS,
W. H. BRENTS,
County Commissioners.
RIT ERWIN, County Clerk.

(SEAL)

EXHIBIT "A"

List and Statement of the purpose and amount of proposed additional and supplemental appropriations deemed necessary to meet the legal and ordinary expenses of Pontotoc County, Oklahoma, for the remainder of the fiscal year ending June 30, 1922.

Office or Dept.	Purpose	Amt. Requested
County Attorney, traveling expenses		\$ 42.74
Sheriff's Office, taking insane to asylum, etc.		200.00

Poor and Insane, supplies for poor			191.25
General Government, rent		524.00	100.00
TOTAL			\$2118.47

CERTIFICATE

We, the undersigned, do hereby certify that the above is a true and correct statement of the fiscal condition of the General Fund of Pontotoc County, Oklahoma, as at the close of business, May 15, 1922; and that said statement is in accordance with and as shown by the records of our respective offices.

Dated this the 15th day of May, 1922.
RIT ERWIN, Clerk.
D. W. SWAFFAR, Treasurer.

Gwin & Mays Drug Company

Make Remarkable Offer To Any Person in Ada Who
Is Weak, Sick, Nervous, or Run-Down.

It Is Now Possible for You to Come to This Store, Buy a Package of Nuxated Iron, Use it for Two Weeks, and If at the End of That Time You Have Not Received All, and Even Greater Benefits Than You Expect, Simply Bring the Wrapper Back to Gwin & Mays and We Will Cheerfully Hand You Back Your Money.

Ada people may well ask how we can afford to make this remarkable "Satisfaction or Money Back" offer. Medical examinations by physicians all over the country show that an amazing number of people lack 100 per cent iron in their blood. At a recent conference, Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Out Door Department), New York, and the Westchester County Hospital, said, "without iron, the blood becomes weak, thin, pale, and watery. In many people this so seriously weakens their vital organs as to lead them to believe that they have heart or stomach trouble, kidney disease, nerve force exhaustion or some other serious ailment. I have had people come to me thinking they had heart trouble, because they often had pains and palpitation of the heart, sudden dizziness, faintness or spots before the eyes. In a great many of these cases, the moment iron was supplied, all of these symptoms disappeared." We make this offer because Genuine Nuxated Iron contains true organic iron like the iron in your blood. So many people are deficient in iron who would surely be benefited by this remarkable remedy that we recommend that you come right to Gwin & Mays Drug Co. and get your bottle of Nuxated Iron. Use it for two weeks, and note the improvement in your own case in strength, energy and endurance. If you are not more than surprised at the results, just bring back the wrapper and we will promptly refund your money without question.

GOOD SOAP FOR LESS
THAN TWO CENTS A POUND

Make It At Home By This
Easy Process—Takes Less
Than 30 Minutes.

Nowadays, more and more women are doing as their mothers did and are making their own soap. If you have never tried it, you will be surprised to see how easy it is to make good soap. A soft soap, hard soap or floating soap, just by using kitchen scraps and waste grease together with a can of Merry War Lye, the safe and sure soapmaker. In the old days when soap was made by the boiling process it took nearly all day to make a kettle of soap. Now it is hardly any work at all—requires no boiling—takes less than 30 minutes. Saves you money and gives you all the pure, clean soap you need for kitchen, laundry and all household purposes. You will find simple directions for soapmaking on the label of every can of Merry War Lye—also many other recipes such as how to make lye hominy, how to soften water, how to make clothes washing easy, how to brighten cooking utensils, etc. Merry War Powdered Lye is also a wonder-fabric cleaner and purifier for about the home, barn, chicken house and outhouses. Comes in a convenient can with revolving sifting top that cannot come off, cannot get lost, recloses tightly and preserves contents. It is economical to buy and easy to use. Ask your dealer for Merry War Lye—be sure you get "Merry War"—the lye that has made good for 83 years.

MERRY WAR LYE
"Makes Mighty Good Soap"

News from Correspondents

FRANCIS.

School was out last Friday. A fine program was rendered by the grade students. Commencement exercises were held Friday night by Prof. Robinson of E. C. S. N. Those receiving high school diplomas were Paul J. Miller, Nellie Kearns, Joe R. Murphree, Velma Johnson, Wood P. Rose, Helen Baker, Lloyd C. Rose, Daisy Byrne, Farris Willingham, and Norman Hildebrand. A nice program was rendered by the graduates Farris Willingham delivering the valedictory address.

Clifton Parker of Ada was in Francis last Saturday on business. Effie Bennett who has been teaching school near Byrd's Mill is visiting here with relatives and friends. P. C. Yates of Spaulding is visiting friends and attending the debate.

The Palace Drug Store owned by Thomas Oliver, was closed Monday because of bankruptcy, but will be opened for business right away, in the hands of T. E. Miller, trustee.

Mrs. R. A. Hutton, left Monday for Neosho, Missouri, to visit with her parents.

Mrs. J. C. Adams and daughter left for Muskogee to visit with their husband and father who is working there.

Evelyn Turiff of Henryetta visited with relatives here last week. Cora Forbess of this place, left Monday for Chelsea, Okla., where she will spend her summer vacation.

Joe Murphree is on the sick list this week, but nothing very serious as yet, is reported.

Eustace McMinn of Ada is visiting with friends this week and is attending the debate.

Prof. T. K. Treadwell, superintendent of the Francis High school, will not be with the school any more. Everybody regrets this loss very keenly.

A debate between Elder F. J. Crosswell "A Second Day Advent" and Rev. Will M. Thompson "Church of Christ" is being held at the Advent church. Proposition under discussion are "The Establishment of the Kingdom, the Immortality of Man and the Punishment of the living nicely, and all are invited to attend. The debate will close Friday evening. C. S. Norman and W. Willingham are moderators.

JONES CHAPEL

The farmers are all busy cutting their hay. Some of them are losing their hay on account of so much rain.

Corn and cotton don't look very good but thing it will live up now. Miss Retha Anderson of Latta spent Thursday night with Clara Tell.

Bud Mosier and Oscar Purdue attended church at Ada Tuesday night. Quite a bunch of the young folks of this place attended the musical at Mr. and Mrs. Stroud's Thursday night.

Mrs. Tell spent Thursday afternoon with Mrs. Wilson. Mrs. Fern Stuard is spending a few days with her mother at Konawa.

John Norton of Pickett spent Saturday night with Jess Norton. John S. Casey is on the sick list.

John Norton and wife and Maud Faulkenberry visited W. W. Norton and family Sunday.

Miss Rosa Ballard visited Miss Anna Norton Sunday. Quite a bunch of the young folks of this place went to Union Hill Sunday to the ball game.

Oral Allen spent Sunday night with his Grandpa Casey.

Clarence Pitt spent Sunday with Brauell Gwaltney.

Miss Anna Norton and Myrtle Williams spent Saturday afternoon with Mrs. C. P. Norton at Pickett attended church at Pickett Saturday night.

Miss Clara Tell is staying at home now attending the Business College at Ada.

W. W. Norton has begun chopping his cotton.

Misses Carrie and Belle Mosier and Lee Norton visited Zona Tatum Wednesday afternoon.

Mrs. Mosier has spent two weeks with her daughter Mrs. Smith at Pickett who is very low with blood poison and is reported no better at this writing.

Virgie Crump spent Sunday with Myrtle Williams.

Mrs. H. B. Allen spent Sunday afternoon with Mrs. Opal Hampton. Miss Anna Norton spent Monday night with Rosa A. Ballard.

Mrs. Eva Norton spent Monday afternoon with Miss Anna Norton. Mrs. Bulah McGee spent Sunday with her mother Mrs. Williams.

PLEASANT HILL

Everybody is busy trying to clean their crops.

Rev. Brown filled his regular appointment at this place Saturday night, Sunday and Sunday night. Church was attended by a large crowd and Sunday school is increasing fast; had a large crowd out Sunday afternoon.

Mrs. Fletcher Reed of this place who has been sick for quite a while, is reported better.

Miss Reba Hisaw and Clifford Voyles took supper with Jewel and Ruby Elmore Sunday night.

Mrs. Pearl Murrell visited her parents Mr. and Mrs. Rolan Saturday night.

Miss Beulah Colbert was shopping in Ada Saturday.

Mr. and Mrs. B. F. McCauley of Ada visited Mr. and Mrs. B. F. Colbert Saturday night and Sunday.

John Abbot visited Mrs. Fletcher Reed Sunday.

Mr. and Mrs. E. Golightly attended church at Pecan Grove Sunday night.

Ruby Colbert is visiting relatives in Ada this week.

COULD HARDLY
STAND AT TIMES

Hips, Back and Legs Would
Have That Tired Ache

Everett, Washington.—"For several years I have had trouble with the lower part of my back and my hips and my legs would ache with that tired ache. I could hardly stand on my feet at times. I was always able to do my work although I did not feel good. I saw Lydia E. Pinkham's Vegetable Compound advertised and having heard several praise it I decided to try it. I feel first-rate at the present time. It has done wonders for me and I keep it in the house right along. I always recommend it to others who are sick and ailing."—Mrs. J. M. SIBBERT, 4032 High St., Everett, Washington.

To do any kind of work, or to play for that matter, is next to impossible if you are suffering from some form of female trouble. It may cause your back or your legs to ache, it may make you nervous and irritable. You may be able to keep up and around, but you do not feel good.

Lydia E. Pinkham's Vegetable Compound is a medicine for women. It is especially adapted to relieve the cause of the trouble and then these annoying pains, aches and "no good" feelings disappear.

It has done this for many, many women; why not give it a fair trial—now.

OKLAHOMA LEADS
FARMING STATES

Whitehurst Shows Reason
Sooner Production Is
Superior To All.

(By the Associated Press)

OKLAHOMA CITY, May 9.—That Oklahoma's claims to agricultural prominence are well founded is indicated by a statement of the states farming resources made to the Associated Press by John A. Whitehurst, president of the state board of agriculture.

"What Oklahoma needs is not so much improvement in the things she has to offer, as in the appreciation of those who profit by them," Mr. Whitehurst said. "If the citizens of Oklahoma would study the established records of their state and then boost as citizens of some other states boost theirs, Oklahoma would assume a new meaning in the minds of the public. It would be known for what it is—one of the best states in the union in which to make a living and one of the best in which to enjoy a living."

Mr. Whitehurst's statement follows:

"A comparative three-year invoice made by the Oklahoma state board of agriculture, based on the average value of farm land makes a most favorable comparison with practically any other state in the union."

"Of the fourteen principal crops grown in the United States, Oklahoma receives the highest percentage of return on its investment in all except two. It has been quicker to recuperate from the post-war depression and is coming back to its feet in a solid way faster than any other state in the Southwest."

Its soil, climate and crops are so diversified that it can come nearer producing all the elements of food and feed needed to sustain its development, than nearly any other state.

Climate is Best.

"Climatically its winters are such that livestock for grazing, feeding and dairying have the advantage of a semi-southern and northern zone. No state, in the short period since our statehood, has made greater progress in the development of better livestock, and we are finding that our climate, with the capacity of our fertile fields, makes a profitable place to grow and feed cattle and hogs. The state is getting off its scrub cattle and hogs, and the farmer without at least one pure-bred sire on his farm is now an exception rather than the rule."

Oklahoma's development in good roads, better homes and higher living conditions is to be seen on every side. The extension department of the Oklahoma Agricultural and Mechanical college through the work done by county agents, the home demonstration agents and the boys' and girls' clubs is rejuvenating the old methods of farming and stock raising. Oklahoma stands out uniquely in its boys' and girls' club work, as compared with all other states. At the International or World's Livestock show at Chicago last December, the Oklahoma boys' stock judging team received second place in the United States, the team from Ohio ranking first. At the Fort Worth Fat Stock show in March, the largest fat stock show in the world, the Oklahoma boys, in competition will all comers, took first place in the United States.

"M. Z. Miller, governor of the federal reserve bank of Kansas City, speaking in Oklahoma City two or three months ago, said that Oklahoma had stood the strain of returning to normalcy better than any state in the tenth federal reserve district."

Farmers Thinking.

"The last two years in farming, in many instances attended by loss, have put the farmers in Oklahoma to thinking hard. But they have courageously set to work to readjust their economics and to attempt to come back into profitable and diversified farming, living largely on the products of their own farms, eliminating store accounts and bank notes."

"While Iowa is the greatest corn state in the nation, yet it showed only 12 percent investment return on the value of its land in the last three years, with Oklahoma showing a return of 42 percent, and the United States, 35 percent."

"The average value of land in Oklahoma, according to the federal crop reported, is \$42.68; Kansas, \$62.30; Missouri \$88.08; Nebraska \$87.91; Iowa \$227, and the average in the United States, \$69.38. Productive lands are cheaper today in Oklahoma and have invariably a higher producing element than in virtually any other state."

"Kansas, the largest hard wheat state, for the last three years has shown an average production of \$20.35 per acre; Oklahoma showing the same amount of production. But on account of Oklahoma land being cheaper than Kansas and Oklahoma showed an income averaging 47 percent on the investment against a 33 percent average in Kansas."

"Iowa, the greatest oat state, made 6 percent on its investment per year on its oat crop in the last three years, producing an average of \$14.05 per acre. Oklahoma oat production on an average through the last three years was \$14.11 per acre, which, based on the value of its land, means an income of 33 percent per year on its lands. The average of the United States was 21 percent."

Oklahoma Beats Texas.

"The annual average of cotton produced per acre for the last three years in Texas has been \$29.14; while the average in Oklahoma for the last three years per acre per year has been \$36.83."

"While barley is not a large crop

The Bloomfield Skirt

You may not know this skirt by name but you should know this: It is all-around the most satisfactory dress skirt on the market and we state this as our opinion, based on our knowledge of makers and their ways. It is a make that fulfills all our requirements as to quality, style, fit, workmanship and value; and we know that you will agree with us on all counts. We count it a privilege to carry the Bloomfield Skirt—a privilege not accorded every merchant.

Prices: \$5 to \$15

Silk Petticoats

White, pink, and high colors, in satin and jersey, beautiful styles.

\$3.50 to \$7.50

Fur Choakers

Just the thing to wear with the sheer Summer Dresses. Fine too for Gifts.

\$5 to \$15

Stevens - Wilson Co.
